

COVID-19 ☐☐

The safety of our patients and our employees is of the utmost importance to us. Here are some of the safety measures we have in place:

- **Limited the number of patients entering the clinics.** We ask patients to enter the office unaccompanied, if possible. For those patients who need a guardian/companion to accompany them, we ask that it be limited to one person.
- **Deep cleaning and disinfecting.** Treatment rooms are cleaned between each patient visit.
- **Masks on.** We ask all our patients to please wear a mask when entering the office and at all times.
- **For the patients that are experiencing a fever, cough, shortness of breath, or any flu like symptoms,** we recommend them to follow the CDC guidelines which includes staying at home thus minimizing the risk of exposure.
